

Bizzcom Hospital Management System

About Bizzcom

Bizzcom is a leading e-business & IT Services Company. Bizzcom has always been looking at ways to move up the Value Chain as well as adopt and adapt to the changing demands of the market. The company has always believed that innovation and quality combined with speed and accuracy, would distinguish itself from competition.

Bizzcom Hospital Management System
- A Single Solution for the Entire Hospital

Bizzcom Hospital Management System is a patient centered point of care hospital management system that integrates every part of the care experience right from patient registration to discharge.

Bizzcom Health is an integrated suite

Including services bookings, medical documentation, pharmacy, hospital administration, billing and inventory management. The application provides an intuitive web-based user interface.

Bizzcom HMS is:

- Seamlessly integrated across all points of care & support functions leveraging the best clinical and administrative practices
- Configurable to dynamic clinical and administrative parameters ensuring a flexible user defined solution
- Highly secure and protects clinically sensitive information with option to configure access depending on roles, user/group types
